

AWS Type DS Calibration Block

NDE TECH

The Product from India

The Reference Standards for NDT Industry

DS Calibration Block

AWS-type block used for longitudinal distance and sensitivity calibration. Contains a 2.0" high section between two 4.0" sections. In accordance with AWS requirements..

Dimensions: 6.000" x 4.000" x 2.000" (152.4 mm x 101.6 mm x 50.8 mm)

AWS does not specify a separate metric version of the DS block. The metric block in AWS shows only the metric equivalents to the standard design. Therefore, this one block can be used for both inch and metric requirements.

Material: Available in different grade materials.
