

Eddy Current Tube Bundle Specimens for PCN Classification

NDE TECH

The Product from India

The Reference Standards for NDT Industry

Eddy Current Tube Bundle Specimens for PCN Classification

Tubes in each bundle is 13 No's, For training 6 bundle's, For examinations 12 bundle's, total 18 bundles
3 No's Cupro-Nickel bundles for training
3 No's Aluminum Brass bundles for training
6 No's Cupro-Nickel bundles for examinations
6 No's Aluminum Brass bundles for examinations

Materials:

1. Amplitude analysis test – 70/30 cupro-nickel of the following composition.
Cu 66%; Ni 30%; Fe 2%; Mn 2%
2. Phase analysis test – Brass tubing of the following composition.
Cu 76%; Al 2%; As 0.04%; Zn reminder

Tube Dimensions, Length Thickness Outer Diameter And Artificial Flaws as per PCN Requirements.
